Leadership

**transnational
legitimacy**

- widespread
acceptance beyond
national
constituencies.

**subtextual
messaging**

- embedding
implicit messages in
overt statements.

**sovereignty
bargain**

- trade-offs between
state autonomy and
collective action.

**value
proposition**

- the unique
vision or benefit
a candidate offers.

**institutional
inertia**

- resistance to
change within
established systems.

strategic ambiguity

- deliberate vagueness
to preserve flexibility.

**preferential
alignment**

- forming selective
alliances based on
shared interests.

**omnidirectional
diplomacy**

- engaging with all
parties without clear
alignment.

norm custodian

- guardian of
international
standards and
principles.

**regional rotation
principle**

- informal practice of
geographic
representation in
appointments.

**middle power
diplomacy**

- leveraging
smaller,
influential states
for coalition-
building.

operational paralysis

- inaction due to
political gridlock.

mandate creep

-expansion of responsibilities beyond original scope.

polycrisis management

-handling interconnected global challenges.
